

# ICS Continenence Awareness Forum

SAVE  
THE  
DATE

**Wednesday 22nd October 19:00 - 21:00 at ICS 2014**

The ICS Continenence Promotion Committee is pleased to announce that the **Continenence Awareness Forum** will return for ICS 2014 in Rio.

This **free event** welcomes the general public, health care providers from all fields and patient advocacy groups. Various national patient advocacy groups exchange and share their knowledge and expertise, along with ICS opinion leaders discussing important news and changes.

We hope this will be an exchange of information regarding urinary incontinence and treatment among our countries including patients, healthcare professionals and industry representatives.

Please e-mail [Jenny@ics.org](mailto:Jenny@ics.org) to register for the Forum.
